

Daniel Chapters 1-4 Discussion Questions:

1. What are examples that you might face on your job and within your circle of friends that would conflict with your faith? What are situations where your obedience to God could create tension in your family or extended family?
2. Have you noticed that doing things God's way is healthier for you spiritually and physically?
3. Even though Daniel was in captivity and serving a pagan king, he rose to a position of prominence. He worked hard and earned respect without compromising his faith. How can that be an example for us?
4. Is it enough to make it clear that you disagree with a policy because of your faith as a Christian or do you ever need to take a step of separation or resignation from a job?
5. Can you give an example of when you went through a fiery trial? Could you feel the presence of God with you?
