

How were Bezalel and Oholiab chosen? How were they so skillful?

What prompted the people to request gods to be made? How does Aaron take it a step further? What can you tell about the kind of a man and spiritual leader he was in chapter 32?

How did Moses intercede for the people? Did he change God's mind about His judgement on Israel?

Why didn't the Lord want to continue with the people? How did Moses appeal to God to continue on with them?

Reflection:

What do you learn about the character of God in these chapters?

Do you have an experience where you went from a spiritual high straight to a spiritual low? How did you get right with God?

Aaron may have convinced himself he wasn't violating God he didn't really take anything away rather just added something to it. What are the dangers of adding to God's instructions and Word?

How do you see God's glory?
