

Chapter 10: Who are the sons of Noah? Do you know which son you have descended from?

Chapter 11:

What is the significance in mentioning they used brick rather than stone and tar for mortar?

What had the people been instructed to do and what did the building of this tower really represent?

What things stand out in verse 7?

To whom is Abram married? Describe their family:

Where were Terah and family headed when they left Ur and how far did they go?

Chapter 12:

What was Abram instructed to do? Did he respond immediately and completely?

Summarize God's plan for Abram's family in verses 1-3 and how it impacts us to this day:

Describe Abram's lie, or his lying by omission (peek at Gen 20:12). What does this tell you about him?

Compare and reflect on the Abram of verses 1-9 vs. Abram of verses 10-20:

In what way is God faithful despite Abram's actions?

Reflection:

Is there any importance in genealogy today? Have past generations in your family ancestry had an impact (positively or negatively) on your walk with God?

In what ways have you been called by God to follow his path for your life?

Have there been times in your life when you felt secure and fully able to trust God's plan vs times you felt like you needed to take matters into your own hands? Open to sharing?

How has God remained faithful to you despite your failures?
